Any child support calculation from the Child Support Program is based on the Oregon Child Support Guidelines and can be used to estimate the amount of child support that may be ordered in your case. This calculation is for informational and educational use only and is not a substitute for the child support guidelines. The Administrator, Administrative Law Judge, or Court has the final authority to determine the amount of a child support order. **This calculation provides only an estimate and is not a guarantee of the amount of child support that will be ordered.** Other factors may affect the amount of child support awarded.

If you have any questions about the child support guidelines, you should talk with a lawyer or contact your local Child Support Program (CSP) office. CSP employees can give you general information, but cannot give you legal advice.
